

Total Art School location.

A beautiful and characteristic mountainous landscape in the French Vosges is the solid stage for our Total Art School. It is an oasis by nature with little streams, a wide view, parts of mixed woods, rocky slopes and meadows full of wildflowers and herbs.

The area around the school of about 10 hectare is available for artfield experiments and Total Art education projects.

Around this area there is a big protected natural reservoir with wild life, mountains, woods, small lakes and streams and various hiking trails.

There are already a lot of equipments on the property, who are part of the Total Art education programme, like :

- The fireplace for rituals, tribedance or firewalk, etc.

- the schwetlodge for schwetlodge ceremonies and the rebirthing hot-water-pool.

- Paths on the circumference of the property with little artworks, exercise spots, a climbing circuit, etc.

On rainy days the education will be inside the big studio's or in the big room of the living house.

During the school semester from 18 June till 14 October 2016 the students can live in their own private room in the guesthouse, in a caravan or mobile home on the camping area of the property, or in a pension in the village. In the guesthouse there are 12 private rooms available. On every floor there are toilets and shower facilities.

On the groundfloor there is a big livingroom, where the students can eat and sit together around the fireplace, having conversations with eachother , play board games, read a book ore whatever .

There is a second livingroom with an internet connection where the students can go online with there laptop or look a movie together on the televisionset. There is an little corner with a fixed Phoneline for the students to make calls.

On the groundfloor there is allso the big kitchen where the warm drinks are made and where the french cook prepares the meals for the students.

On the south-side of the house there is a sun-terras with a panorama view over the mountains.

on the side of the guesthouse is a terras with big tables where the students and the crew can eat together.

For the students who live in caravans or a mobile house there are separate toilet, wash and shower facilities in the valleyhouse, easy to reach for the camping area. There is allso a big canteen with sitcorners, a little bar and a place to make tea.

For the practical work with art there are working places and ateliers on the property. There is a big hall of 320 M² with all kind of tools for sculpturing or modeling with wood, stone, metal, plaster, ect. On the balcony in the hall there is a space of 100 M² for designing work with big tables and the facilities for all kind of paintingtechnics.

There is a tunnelhall of 240 M² for all kind of preparations for the elements of an artfield with lifting equipments and transport facilities.

There is an atelier for working with glass, tiffany and mozaiekobjects.

There is a studio for clay, wax ect. artworks.

During summertime, when the weather is good we have possibilities to setup 6 big tents who can be used for all kind of studio's and artwork.

The places for these tents are already prepared.

Thank you for your attention.
