

Universal Spirituality

introduction:

The world did not end on 21.12.2012 . On the contrary. More and more people awake out of the old matrix and discover there real basic human needs, there true potentiallity, intuition, creativity and spiritual power.

The old matrix with the old brain-washed-programmes falls apart:

- the monetary system collapse,
- the economical system fails,

- the ecological system suffers,
- the education systems can not create workplaces for the young people,
- religions become fanatic and fight against each other without understanding,
- masses escape from real time into the cyberspace (games, TV, cyberworlds, ect)
- our food is genetic manipulated and controlled by a few multinationals,
- all our phonecalls and e-mails are recorded and controlled by NSA spy programmes.
- the medical system is in the hands of the big pharmaceutical companies
- the mainstream media is controlled by a few elites on the top of the pyramid,
- ect, ect ..

This video explains step by step how the basic human needs are natural ways of development to understanding, wisdom, inner peace and blissfulness. This knowledge was always very dangerous for the ruling elites, because people who are in harmony with their basic human needs can not be manipulated and enslaved and can almost not become depressive.
